Experience

Content Creator

RoboTeach Nepal • Kathmandu, Bagmati Province

02/2022 - Present

As the leader of the content creators and technical team, I was responsible for maintaining the organization's website and publishing a daily blog/article. I had to act like a grown-up for the first time in my life because I had to take responsibility for other people's mistakes and carelessness. In the case of some team member messing up, I was responsible for fixing the problem. To be honest, that experience felt both heavy and rewarding at the same time.

Front End Developer

Fiverr • online

05/2022 - Present

I have to work as a team and solve problems. I enjoy this job because it is very challenging but also very rewarding. The most important thing that I learned from this job is teamwork skills. This is one of the most essential skills for me to learn here at my current job because if we don't work together as a team, we will not be able to complete our tasks on time or even at all. Also, another skill that I have learned from my current position is problem-solving skill since there are always many different issues that need to be solved every day by everyone.

Content Creator

Neplease Youth for Climate Action • Kathmandu, Bagmati Province

03/2021 - 05/2022

I served on the content writing team at Nepalese Youth for Climate Action (NYCA) where I had the opportunity to work with students of different schools and backgrounds. Throughout my time there, I acquired valuable team collaboration skills, leadership skills, and most importantly communication skills. Having worked in a totally different environment from what I used to, I got to know new people, learn new subjects, and take on new perspectives

Skills

Cloud Computing, Front-End Development, Programming, Data Analytics

Education

Physics, Chemistry, Economics, and Mathematics

Budhanilkantha School • Kathmandu, Bagmati Province

06/2022

- Graduated with 3.5+ GPA
